

## Customs offices open to TIR traffic Germany

An updated list customs offices open to TIR traffic may be found on the following web [page](#).

### **Special provisions**

#### *Facilities provided outside opening hours*

The Customs authorities may refuse clearance facilities outside opening hours. If, however, on application clearance takes place outside opening hours, a charge is made. In general, a request for clearance outside normal opening hours will mainly be taken into consideration for perishable goods. Requests for clearance should be made as early as possible to the competent Customs Office. For regular haulage, clearance outside opening hours is not possible in principle. An exception can be made only if a delay in clearance would entail undue hardship and if the employees for clearance can be made available without impeding normal service.

In Germany, TIR carnets are issued by the Bundesverband Güterkraftverkehr Logistik und Entsorgung (BGL) and by the Arbeitsgemeinschaft zur Förderung und Entwicklung des Internationalen Strassenverkehrs (AIST).
